

KENYA FOR THE LONG RUN 2014

From the incomparable wildlife of the Maasai Mara, the captivating biodiversity and elephants of Samburu to the fascinating conservation and cultural experiences of the Laikipia region, this journey offers an unrivalled voyage through the land where the safari originated. Known for its endless savannah plains and empty deserts, only interrupted by snow-capped mountains and equatorial forests, Kenya is a land of diverse ecosystems and magnificent landscapes. Each lodge visited is associated with the Long Run Initiative – an initiative dedicated to achieving sustainability through the balance of the 4Cs (Commerce, Conservation, Community and Culture). For further information on the Long Run Initiative, visit www.thelongrun.com.
